Address

BOYLAN HEIGHTS

Historic District

Historic Property

090-14-MW

Certificate Number

7/8/2014

Date of Issue

1/8/2015

Expiration Date

Project Description:

- Remove and replace front and side doors.

OK to PERMIT

This card must be kept pasted in a location within public view until all phases of the described project are complete. The work must conform with the code of the City of Raleigh and laws of the state of North Carolina. When your project is complete, you are required to ask for a final zoning inspection in a historic district area. Telephone the RHDC office at 832-7238 and commission staff will coordinate the inspection with the Inspections Department. If you do not call for this final inspection, your Certificate of Appropriateness is null and void.

	YES	N/A	YES	NO	N/A
<p>Attach 8-1/2 " x 11" sheets with written descriptions and drawings, photographs, and other graphic information necessary to completely describe the project. Use the checklist below to be sure your application is complete.</p> <p>Minor Work (staff review) – 1 copy</p> <p>Major Work (COA Committee review) – 13 copies</p>					
1. Written description. Describe clearly and in detail the nature of your project. Include exact dimensions for materials to be used (e.g. width of siding, window trim, etc.)	<input checked="" type="checkbox"/>		✓		
2. Description of materials (Provide samples, if appropriate)	<input checked="" type="checkbox"/>		✓		
3. Photographs of existing conditions are required.	<input checked="" type="checkbox"/>			✓	
4. Paint Schedule (if applicable)	<input type="checkbox"/>	<input checked="" type="checkbox"/>			✓
5. Plot plan (if applicable). A plot plan showing relationship of buildings, additions, sidewalks, drives, trees, property lines, etc., must be provided if your project includes any addition, demolition, fences/walls, or other landscape work. Show accurate measurements. You may also use a copy of the survey you received when you bought your property. Revise the copy as needed to show existing conditions and your proposed work.	<input type="checkbox"/>	<input checked="" type="checkbox"/>			✓
6. Drawings showing proposed work <ul style="list-style-type: none"> <input type="checkbox"/> Plan drawings <input type="checkbox"/> Elevation drawings showing the new façade(s). <input type="checkbox"/> Dimensions shown on drawings and/or graphic scale. <input type="checkbox"/> 8-1/2" x 11" reductions of full-size drawings. If reduced size is so small as to be illegible, make 8-1/2" x 11" snap shots of individual drawings on the big sheet. 	<input checked="" type="checkbox"/>	<input type="checkbox"/>	✓		
7. Stamped envelopes addressed to all property owners within 100 feet of property not counting the width of public streets and alleys. (Required for Major Work)	<input type="checkbox"/>	<input checked="" type="checkbox"/>			✓
8. Fee (See Development Fee Schedule)	<input checked="" type="checkbox"/>		✓		

731 S Boylan Ave

Raleigh NC 27603

June 19, 2014

Dear Raleigh Historic District Commission:

Enclosed is my application for Certificate of Appropriateness to replace 2 exterior doors on my home located at 731 S Boylan Ave. I have enclosed the application, a check for \$40.00, information on the replacement doors as well as a description of why this work needs to be done.

I hope this information is sufficient for your review. Please let me know if you need anything else.

Sincerely,

A handwritten signature in blue ink, appearing to read "Victor Harabin", with a stylized flourish at the end.

Victor Harabin

Our home was built and completed in May 2005 as a new construction compliant with all historic standards applicable for Boylan Heights. Unfortunately 2 of our exterior doors have had problems which cannot be repaired. Our front door facing Boylan Ave is warped at the top which allows both cold & hot air to enter the home—it cannot be unwarped. We also have a deck door facing out toward Dorthea Drive which is a sealed double paned glass door which has had a breach in the seal and now humidity is seen between the 2 glass panels and is unsightly—I don't think photography can show either of these problems.

We want to maintain the character of the house and use a more durable, energy efficient wood molded fiberglass doors to replace both these doors. My wife was dead set against the fiberglass until I took her in to the showroom at Stock lumber and she saw for herself how nice the doors look. They are indistinguishable from a real wood door unless you cut into them or knock on the door. The molde for the fiberglass is based on a real wood door. I am enclosing the specs for each door we would like to replace. In the front (Boylan Ave) we would change the current clear glass to a decorative stained glass door with a mahogany stain for the wood surrounding the glass. For the deck door, we want to decrease the amount of glass (because it is southern facing) to 2/3rds of the door length. Also, we would maintain the current red color of the wood surrounding the glass.

I hope this information is adequate.

Respectfully,

Victor Harabin

Subject: Re: COA Application for 731 S Boylan Avenue

Ok, fair enough. I will find a wood door for the front & provide more info on the door for the back. It opens to a second level deck and is only partially visible from Dorthea Dr. It's the one that seems to get the weather and sun the worst. I'll also send some pictures of the current doors. Thanks

Ms Tully--I'm going to re look at the wood options for replacement. Is it possible to keep the rear door a smooth fiberglass without requesting a major change as long as the front is wood?

On Jul 2, 2014, at 2:44 PM, "Tully, Tania" <Tania.Tully@raleighnc.gov> wrote:

Mr. Harabin -

One change to my previous email. The smooth faced fiberglass is approvable on the rear doors, but has not yet been approved for a primary door. See page 11 on the attached.

Best,
Tania

Subject: COA Application for 731 S Boylan Avenue

Mr. Harabin –

Thank you for submitting the COA application for replacing the doors on your house with fiberglass doors. This is not something that can be approved at the staff level. The Raleigh Historic Development Commission (RHDC) has not yet approved the use of non-wood doors, even on detached new construction. Because of this, the application will be forwarded to the COA Committee for review. The next available meeting date is August 4.

In order to complete the application and be placed on the agenda, please provide the following by the application deadline of July 16, 4 pm.

- Application fee of \$116 (\$144 Major Work fee - \$28 already paid). This may be made via telephone (919-996-2495) or in person (Drop off at the **4th floor** of One Exchange Plaza to my attention) referencing transaction number 401261.
- Stamped envelopes addressed to the property owners within 100 feet of your property. This app will generate the addresses help create labels: <http://maps.raleighnc.gov/PlanMailList/> (Drop off at the **3rd floor** of One Exchange Plaza to my attention)
- Current photographs of the house and the doors to be replaced.
- Additional information for the proposed new doors. This could include some of the following:
 - Better illustrations of the proposed doors;
 - Manufacturer information that answers these questions:
 - What is the surface texture? The commission has generally not approved faux grain textures.
 - Can it be painted?
 - How is the glass held into the door?
 - How is it constructed?

Looking at the specs you provided in the application it appears that the products are Jeld-Wen Smooth-Pro and Design-Pro. Based on past decisions, I believe a case can be made that the Smooth-Pro door meets the [Design Guidelines](#). The Design-Pro may be problematic due to the woodgrain fiberglass facing. Bringing a sample to the meeting may be to your advantage.

A The other option is to switch to wood doors that I can approve at the staff level. — *selected*

Please let me know if you have any questions and how you wish to proceed.

Best,
Tania

Tania—I've selected a new Oak front door and have attached info for it (both specs & a picture) as well as the rear deck door (which is smooth fiberglass). I will also send another email with pictures of the current doors (I don't want to load too many files). Thanks, Victor
