January 29, 2015

We propose renewing the portion of COA 024-12-MW regarding moving the air conditioning units from the east side of the house to the west side of the house. The original application included photographs and the approximate location and visibility of the proposed units and nothing has changed regarding location and visibility. The following photographs show the current conditions of the proposed new location. The other components of COA 024-12-MW do not need to be renewed.
